

Tom P. Aufderheide, MD, MS Endowed Lecture

Keynote Address: SAEM Great Plains Regional Conference

“ECMO-Facilitated Resuscitation: Insights and a Vision for the Future!”

Thursday, September 8, 2022

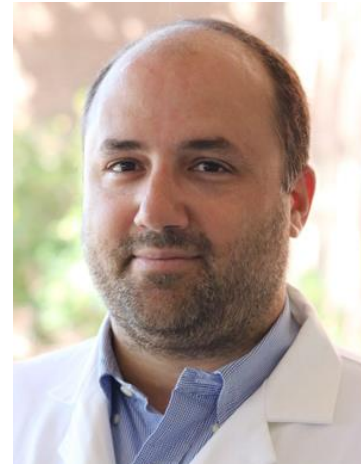

8:00am – 9:15am

In-Person: MCW Bolger Auditorium, Zoom Link: Below

Tom P. Aufderheide, MD, MS

Professor of Emergency Medicine
Director, Resuscitation Research Center
Department of Emergency Medicine
Medical College of Wisconsin

Demetris Yannopoulos, MD

Professor of Medicine, Division of Cardiology
The Robert Eddy Endowed Chair in Cardiovascular
Resuscitation
Medical Director, Center for Resuscitation Medicine
University of Minnesota

Dr. Demetris Yannopoulos is an interventional cardiologist at the University of Minnesota who pioneered and established the world’s most successful ECMO-facilitated program for patients with refractory cardiac arrest. Dr. Tom Aufderheide is an emergency physician and internationally recognized researcher in the Department of Emergency Medicine at the Medical College of Wisconsin. Collaborating for nearly two decades, this synergistic, multi-disciplinary team have brought this innovative approach from bench to patient.

Journey with them on a wild ride of innovation, insight, and challenges that is progress in cardiac arrest resuscitation! Learn more about key components of a successful ECMO-facilitated program. Then, discover the latest scientific insights that lay the foundation for an inspired future!
